

TLI32416

Certificate III in Logistics

Release 1

Our TLI32416 - Certificate III in Logistics qualification is for those engaged in logistics operations within the Transport and Logistics Industry. It involves a defined range of skilled operations, usually within a range of broader related activities involving known routines, methods and procedures, where some discretion and judgement is required in selecting equipment, services or contingency measures within known time constraints. It may also include responsibility for coordinating the work of others.

Examples of career prospects

- Logistics Administration Officer
- Logistics Service Clerk
- Stock Controller

Entry Requirements

There are no pre-requisites for this course. Students are required to provide their Unique Student Identifier, photo identification and meet the language, literacy, and numeracy requirements¹.

Upon enrolment if you wish J2S Training Solutions Pty Ltd. to obtain a USI on your behalf, this will need to be indicated on the enrolment form provided. Speak to us today.

Course Highlights

Upon successfully completing this qualification, you will be able to:

- Organise despatch/receival operations and documentation
- Use inventory systems to organise stock control
- Identify products and store to specifications
